Good morning,

It is my understanding that there are 3 seats coming up for election in the Rivers Edge CDD 1 - seats 1, 3, and 5. I also understand that someone running for seat 5 withdrew her name from the ballot and it is too late for someone else to have their name on the ballot which results in an appointment for this position.

I am writing to express my interest in this position. Over the past 21 years, I have served on varying boards and held leadership roles, including HOA President in a small community in Mandarin. I recently stepped away from all other roles and would be interested in helping my community continuing to thrive and working to make the best and sound decisions for the community.

As I approach my fourth anniversary of being a Rivertown resident, I continue to love where I live and want it to be a place where everyone is proud to call home.

Subject: Rivers Edge CDD 1 Board Seat **Date:** December 10, 2024 at 9:55 PM

To: chogge@gmsnf.com

Hi Courtney – Thank you for answering my questions about the CDD seat. I am pleased to submit my resume (attached) for consideration.

I am interested in CDD service because I believe our community is a uniquely beautiful, safe and friendly place to live, but I also know that future success is not guaranteed to any neighborhood. Instead, a community needs continuous, attentive support from its residents and leaders to retain its culture and appeal.

My approach to service and leadership rests on three attributes:

- 1. **Voracious appetite for learning**: I will read the materials, ask questions, dig into the facts, and strive to be the best prepared participant in all CDD meetings.
- 2. **Meticulous communicator**: You can depend on me to communicate thoughtfully and respectfully with other board members and residents. I understand and communicate the "why," with both clarity and authenticity.
- Steadying presence in the face of challenge: Throughout my career, I have guided
 organizations through times of crisis. I am very comfortable navigating unexpected adversity and
 difficult conversations.

In addition, I would wield experience to make unique and lasting contributions to our CDD. My 14 years as an attorney has sharpened my ability to identify risks, opportunities, and pragmatic solutions. Serving as an HOA president in both Wisconsin and Georgia has prepared me to understand the challenges and benefits associated with developing and maintaining common areas for the good of all. My work with non-profits and universities has broadened my perspective on what a community needs to thrive.

Lastly, my time overseas has deepened my understanding of what it means to be an American. In this country, we love our homes, neighbors, and communities, which is important but not what makes us unique. I believe what sets us apart is a special American restlessness that keeps us pushing for something better. That is the spirit in which I seek to serve: treasuring what we have today, but also focused on how to grow even better in the future.

It would be an honor and a privilege to serve my community on the CDD 1 Board.

Thank you for considering me, Adam Briggs 160 Wild Sage (Arbors West) (770) 883-8392

To: Corbin, Lauren,

This email serves to inform the district that I am interested in retaining my seat (Seat 5) on the CDD Rivers Edge 1 board of supervisors. Seeing that there were no qualified members that were selected during the open elections, I have addressed the board in past meetings that I am available to continue being an active board member thru the next four year.

I feel my 26 years of government program experience, 8 years as a government contractor, and 6 years as a military member have served this community with demonstrated savings of over 1.2 M during these past four years. I intend to verbally address the board with my experiences to retain my seat on the board during the December meeting.

If there is anything you require from me prior to this meeting, please feel free to reach out to me directly.

Courtney,

I hope all is well. I will once again throw my hat in for the vacancy. I have attached my resume as requested. I also included some additional notes for the Board's consideration below, which I hope you can pass along:

I love RiverTown, and I would like to work with the existent resident base, management groups, and various other connected parties to ensure that the community is proactive in hearing concerns, addressing issues, and finding operational efficiencies to help manage YOY cost increases. I have lived in RiverTown for 4 years and was part of the development team who originally purchased and planned the community for several years prior to that. I am familiar with Sunshine Laws, how the board operates, the meeting schedule, and the work that needs to go on outside of meetings to ensure the meetings themselves are productive and meaningful. I understand and have reviewed or directly negotiated most of the documents that govern RiverTown as a community. I have a unique perspective given my work background, that could provide some benefit to the existing board. My goal with the seat would simply be to assist in fielding and addressing resident concerns, and working with the board and staff on forward-looking items to ensure RiverTown is the best version of itself long-term. That includes managing assessment levels and maximizing homeownership values through smart community management.

I appreciate the consideration and am available for any questions a board member may have.

Respectfully,

Jacob O'Keefe

Summary

I genuinely love helping businesses solve problems related to marketing, operations, sales, and accountability. I've helped start a few businesses and understand the challenges of being an entrepreneur. Doing what we need to grow our businesses takes time and energy. Unfortunately, keeping up with payroll, finding customers, hiring, and the day-to-day tasks in business prevent us from growing our businesses and becoming more profitable. Pro Business Advice empowers our clients to take things to the next level with focused marketing services that align with their standard operating procedures. We build websites, handle advertising, plan events, and more.

Rivers Edge Community Development District Board

475 West Town Place Suite 114 St. Augustine, FL 32092

Dear Members of the Rivers Edge CDD Board,

I am excited to submit my application for the Rivers Edge Community Development District Board of Supervisors. As a professional with extensive leadership experience in startups and a passion for community engagement, I bring a fresh perspective and energy that align with the district's continued growth and development.

My career has been defined by building strong operational foundations for rapidly growing organizations, much like the stage of growth our community is experiencing. I specialize in fostering open communication, implementing effective systems, and guiding teams toward sustainable success. These skills translate directly to the responsibilities of a board supervisor, where strategic planning and stakeholder collaboration are essential.

While I lack traditional government experience, I see this as an opportunity rather than a limitation. Along with my relative youth compared to many typical candidates, I can offer a fresh viewpoint and an eagerness to challenge the status quo with innovative ideas. I believe that by combining my experience with the insights of more seasoned board members, we can create a dynamic and well-rounded leadership team that reflects the diverse needs of our district.

My desire to serve on the board stems from a deeply personal place. As a parent raising my children in Rivers Edge, I am committed to contributing to the community they call home—not waiting until they are grown, but taking an active role now to help shape their environment. I am passionate about fostering a district that balances responsible growth with the preservation of its unique character, ensuring it remains a place where families and neighbors thrive.

I am confident that my skills in strategic planning, resource management, and communication, combined with my enthusiasm and fresh perspective, will allow me to make meaningful contributions to the Rivers Edge CDD Board. I would welcome the opportunity to discuss my qualifications further and share my vision for the community.

Thank you for considering my application. I am excited about the prospect of serving our community and contributing to its continued success.

Sincerely,

Tyler Warden

E. General Manager – Monthly Amenity and Field Operations Report

Mr. McKendree discussed options to repair the asphalt trail around and along Waterfront Drive.

On MOTION by Mr. Maynard seconded by Mr. McIntyre with all in favor line 10 of the proposal from Duval Asphalt in the amount of \$17,632.65 was approved and Supervisor Cameron was authorized to approve up to an additional \$5,000 for a seal coat.

Mr. Losco stated the purchase of a generator for the River Club was brought up at the last meeting, we had approval from Districts II and III to investigate costs and available options and we are seeking quotes for further discussion.

SIXTH ORDER OF BUSINESS Consideration of Resolution 2025-04 Declaring the Series 2018 Project Complete

Ms. Gentry stated this is required under your bond indenture. Once all the work for a project that was funded by bond proceeds is complete, you have to get an engineer sign off that everything has been completed as was contemplated and in accordance with the representations we made to bondholders and we close that out. Any remaining funds, which in this case was the result of interest accruing, gets rolled over and used to pay the principal a little sooner. This is a

nominal amount and won't make a huge difference. This resolution accepts the engineer's certificate of completion, gives direction to finalize the special assessments that were repaying the debt and take administrative actions necessary to close that out.

On MOTION by Mr. Baron seconded by Mr. McIntyre with all in favor Resolution 2025-04 was approved.

SEVENTH ORDER OF BUSINESS Consideration of Resolution 2025-05 Amending the Fiscal Year 2024 Budget

Mr. deNagy stated this resolution authorizes the board to amend the budget within 60-days following the end of the fiscal year and that the board finds it in its best interest to amend the budget to reflect actual appropriations in line items and is a step in preparing for the 2024 audit.

On MOTION by Mr. Baron seconded by Mr. Cameron with all in favor Resolution 2025-05 was approved.

EIGHTH ORDER OF BUSINESS Ratification of Cost Share Request for Holiday Lighting

Mr. Losco stated this has been approved and is on the agenda for ratification. Total compensation is \$22,520 of which Rivers Edge I cost share is \$7,143.34, Rivers Edge II is \$7,478.89 and Rivers Edge III \$7,897.76. I believe they will be starting the work today through the 24th

NINTH ORDER OF BUSINESS Discussion of Halloween Event

Ms. Gentry stated the Hallo-Crawl event is very popular. This year the event expanded significantly and use of CDD property had expanded significantly. We want to have a discussion on how you want to approach the Hallo-Crawl next year. The goal is not to stifle the fun events but make sure that district property is being used in a way that we have some control over and protects the district from liability. Normal recreational use is fine, but outside vendors, alcohol, setting up electrical equipment we need to get out ahead of.

Mr. McIntyre stated I think the best approach would be to have at least one representative from each participating neighborhood take the lead for that particular neighborhood and work with

the other neighborhood representative to ensure we are on the same page and not breaking any rules and ensure that the areas are cleaned up.

Mr. White stated he would be happy to serve as the designee to begin discussions with the residents. Additional discussion ensued.

On MOTION by Mr. McIntyre seconded by Mr. Maynard with all in favor Supervisor White was authorized to be the liaison for the Hallo-Crawl.

TENTH ORDER OF BUSINESS

Discussion of Fish Stocking for Insect Remediation

This item taken earlier in the meeting.

ELEVENTH ORDER OF BUSINESS Discussion of Family Pool Project

Ms. Gentry stated Vesta identified a need for repairs to the family pool in an estimated amount of \$400,000. We are between the different bid thresholds that we have for formal bidding. If something is classified as a maintenance service that threshold for formal bid is triggered at \$195,000. For construction projects any project to construct or improve a public building or structure that threshold is just over\$519,000. This project in discussions with Vesta and preliminarily with the II and III boards, it could be classified as construction or maintenance. Given the amount we wanted feedback from the board on whether you want to follow that closed, sealed, competitive bid process. The pros are it is more controlled in the way that bids are presented, everybody has a well-defined timeline process, they remained sealed until opened and you have very specific criteria that you judge them by. The cons are it is more burdensome to do a sealed bid process, some bidders are put off by the formal bid process, and of course there are greater administrative costs to the district. If you want to classify it as a construction project we can bring back the proposals with any adjustments that are needed to make sure they are apples to apples. If you want to classify it as a maintenance project then we need to put out the formal bid package, advertise it in the newspaper and start the formal process to bring the bids.

- Mr. Maynard asked do we expect multiple bids on this project?
- Mr. McKendree stated we already have three.
- Mr. Stillwell stated with a formal bid you are looking at the January meeting at the earlies to review proposals. You could easily run an informal bid with a specific scope of work. The

holidays are going to interfere with the timeline either way. The scope of work needs to be specific with either option.

On MOTION by Mr. Baron seconded by Mr. White with all in favor staff was authorized to use the formal bid process for the maintenance project of the family pool.

Mr. Stillwell asked will you want evaluation criteria?

Ms. Gentry stated yes, we did include sample documents in the agenda package in case the board wanted to go this way. You have the sample ad for the request for proposals and evaluation criteria.

On MOTION by Mr. Baron seconded by Mr. McIntyre with all in favor the evaluation criteria was approved in substantial form.

TWELFTH ORDER OF BUSINESS Discussion of Community Garden

Mr. Maynard stated at the last meeting the board tasked me with meeting with the owners of the community garden plots. Vesta had sprayed weeds in the pathways of the community garden, which drifted into the plots and caused some die off. We met and talked about some issues, needs that they had and one is to have the contaminated soil removed out of the beds and new soil added into the beds, beds are rotting due to age, members of the garden group are willing to build their own beds if the CDD provide the materials to do that, and provide trashcan, replace hoses, ability to put crushed shells in pathway to inhibit the growth of weeds, advertise the availability of plots. The group has agreed to form a Facebook group and are willing to follow the guidelines we have in place. Three plots have winter vegetables planted. I would like the opportunity to spend up to \$5,000 to get the process started. As plots are sold the revenue will come back into the budget. This item will be placed on a future agenda for further discussion.

Rivers Edge CDD - I, II, and III

Landscape Update for December 2024

General Maintenance

- Our maintenance team has mowed all common grounds throughout community and have been cleaning up shrub beds.
- We have set the clock to run twice a week with the turf going dormant and cold temperatures
- We have Detailed and Cleaned up the Riverhouse and Riverclub.
- We have completed Renderings for the front entrance of Main Street, Roundabouts on SR 13, and The River House.
- o Team is spraying for weeds throughout the community and trimming shrubs.
- o Teams will work on grass cutbacks and removing moss from trees
- We will insure that all tree suckers are removed from the base of the trees
- o Teams will dead wood oaks throughout as we go through each section this winter season
- Team has been spraying all mulch beds for clean appearance.
- Teams have removed numerous trees and limbs that have fallen at no charge. Larger trees will be proposed for removal by the arbor team.
- Mattamy, Vesta, and Yellowstone are doing monthly drives throughout the community to check on status of concerned areas and the overall appearance of the community.
- Annual flowers will be installed on December 15th along with fresh and rich soil. We
 raised the beds for a better show. We have installed red and white Snap Dragons in the
 back and Dusty Miller in the front. This will give the Christmas/winter feel and look
 amazing. The next rotation will be in March.
 - The low beds have caused the flowers in the past to decline prematurely and not show off as intended.
 - This is caused by the flowers staying too saturated which causes the roots to rot.

- Proper mowing heights for each type of turf will be achieved throughout the winter and early spring months.
 - Because of this you will see scalping occasionally until the proper height is achieved.
 - Ex. If you want to maintain a height of 4in you need to drop the level of the existing canopy of the turf to between 3.5-3.75 so that the new green growth is what is showing after each mowing occurrence moving forward.

Irrigation

- o Techs have been running through system and making repairs as we go.
- o All clocks are being set to run two times a week due to amount of rain we have had
- o Lead tech is working with IQ system to help system run more efficiently.
- We are setting five day rain delays when we have rain
- Other options are being looked at to make the system more efficient and save on the annual water cost.
 - Items being looked at:
 - Eliminating bubblers on established trees that do not need them anymore
 - Making sure all rain sensors are operational
 - Adding rain sensors to battery operated valves
 - Each area will be different depending on layout and justification of cost.
 - Some will be looked at to be added to a clock with wiring.
 - Others will be looked at for rain sensor installation and hidden by plant material if required.

• Fert/Chem

- Our techs will be treating for turf weeds throughout the community.
- The turf is starting to go completely dormant. The color will change due to this but will pop and push back come spring time.
- Lead tech is Treating roses with bone meal and liquid fertilizer.

• Arbor

- We will continue to lift low hanging trees throughout community each week for line of site issues, safety issues, aesthetics, and improved tree health with balanced weight distribution from the branches.
- We are working on Palm tree trimming and should complete by end of January. There are over 1,200 Palm trees In Rivertown

RECDD I

Asphalt Trail around and along Waterfront Dr:

It was brought to our attention that the walking trail near the intersection of Waterfront Dr and Orange Branch Trail needed some attention. We are looking into removing the asphalt, cutting away the tree roots and asphalting the affected area, then applying a top seal coat over the entirety of the trail. Duval Asphalt's quote was selected in November's meeting, and they quoted the seal coat under the required monetary threshold approved by the board. We are working on the details to get the job started.

Waterslide:

We are in the process of gathering proposals for slide resurfacing of our waterslide at the RiverHouse. This will need to be performed this offseason.

Waterslide Tower Frame Issues:

While inspecting the slide tower staircase we discovered that some of the platform's support beams had excessive rust. We brought in a structural engineer who was recommended by our district engineer to inspect the tower. The slide is closed now due to it being off season and he suggested we address the issue before next season. There will need to be multiple weld repairs made near the top of the platform to ensure everything is up and the beams will need to be painted to protect them going forward on a recommended annual basis. The engineer described this as a small job, although somewhat costly, and he has a recommendation on a welding company to use (Skyline Construction) where he will meet with them on site during the repair to instruct accordingly. We have obtained their quote and are working on others for comparison.

Waterslide Tower Bolt Replacement:

The carriage bolts that attach the boards on the outside of the frame of the waterslide tower have rusted to the point where the heads have deteriorated. The lumber is still whole and in good shape, so we are simply looking to replace the bolts with 3/16s stainless steel versions for longevity. We are gathering quotes and will present this off season.

RiverHouse Pool:

The expansion joint in the family pool has developed a crack. Epic Pools came out to putty over it to ensure no water is being lost. We will continue to keep an eye on this crack and have backup putty on hand. The pavers are having issues in multiple areas as well due to the palm trees' growth uplifting

them. We are currently gathering quotes for pool resurfacing as the finish is original to the pool's inception and well past its life expectancy. This job will be going out for a formal RFP, likely presented in January.

RiverHouse Pool Furniture:

Last off season we replaced the lounge chairs around the family pool at the RiverHouse and relocated any of the salvageable chairs to the lap pool side. This off-season we will need to order matching chairs for the lap pool side as the old ones are original to the property and have many broken welds and broken slings. We are preparing this quote from the same manufacturer as the others and will present it when available.

Waterfall Grates:

The grates that ripple the water on the Main Street waterfall entrance are rusted and broken. We need to have all of these replaced and are pricing out options. The new grates will be made of stainless steel.

Tennis Court Lights:

Most of the lights stopped working on our tennis courts. We had all 3 contactors replaced which fixed the circuitry issue. We also had multiple ballasts and sockets that were burnt out. We eliminated the ballasts, replaced the sockets and installed LED bulbs. This is now complete.

Pothole on Footbridge alleyway:

There is a large pothole that formed on one of alleyways off Footbridge in the Gardens neighborhood. We got with the District Engineer to investigate the root cause of the pothole, and it was determined to have not been caused by an underlying water or drainage issue. We cold-patched the area for now until we can get it properly repaired.

Street Signage around Main Street:

Many of the street signs in the Main Street District have seen better days. Their reflectivity is worn down from sun damage. We have contracted Sundancer Signs to replace the decals on these signs to bring them back up to standard.

Tree Replacement:

We are working with Yellowstone to replace 2 oak trees on Rivertown BLVD as you enter the community in front of the RiverHouse. These were casualties of Hurricanes Helene/Milton.

RiverHouse Parking Lot Lighting:

We were tasked with adding additional lighting to the RiverHouse parking lot for safety reasons. We will begin this process by having a lighting test done by a electrical engineer to determine proper placement of additional lights. After that we will be able to obtain quotes.

Community Garden:

We were tasked with revamping the community garden as most of the materials in it are original to its inception. This will include a new ground cover, planter beds and soil.

RECDD II

Right Side Firepit:

The control module for the right side firepit is inoperable and is being sent back to the manufacturer for warranty repair/replacement.

RiverClub Generator:

The board of CDD 1 has inquired about adding a built-in generator to power the RiverClub Café as it is prone to prolonged power outages resulting in losses in food spoilage and security systems being down. We will gather information and pricing to present to the boards'.

RiverClub Painting:

The RiverClub needs fresh paint of the exterior as the old original coat has seen better days. We will be presenting quotes soon.

RiverClub Pool Coping:

A large area of coping on the radius of the walk-in entry was collapsing into the pool. This caused the backsplash tile to pop off as well. We contracted Epic Pools to repair the area as we have used them for similar issues in the past at other locations. This is now closed.

Sewage back up in Riverclub:

The bathrooms at the kayak shed had a sewage back up issue due to the failure of the lift station that assists the facilities. The club itself did not have any issues likely due to its higher elevation. The power of the pumps became intermittent causing this system to fail therefore we needed to replace the pumps that were original to the facility. This is now complete.

All Districts

Street sign visibility audit:

We have been working with Supervisor Cameron on street signage that is not visible due to trees blocking them. Some of the trees are owned by CDD and some are homeowner trees. We are coordinating Yellowstone on the trimming back of our trees and will be notifying the HOA of any trees that are homeowner trees so that they may notify the residents. We have also located approximately 60 signs in the main street area that are sun-faded to the point that the decals need replacing and we have begun the process of these repairs.

- **-RiverHouse:** IAS Replaced NVR for RH Security Camera System and Palm Court Patio camera as it was no longer functional on 11/14/2024. Next Service will troubleshoot Tennis Court and Slide Tower Cameras to resolve connectivity issues and see if any of the cameras need replacement. Ordering new signage for Pickleball and Tennis courts.
- **RiverHouse Gym:** Contacted the Commercial Fitness rep about some rusting/corrosion on handlebars of the treadmills. Excess moisture is a persistent issue that results in faster wear and tear of gym equipment. He will come out to replace the bars on the treadmills. All equipment is functional. Pushing thorough gym cleaning to associates.
- **RiverClub:** Ordered replacement Golf Cart Parking Only signs and Dog Park signs. Received new Adirondack chairs for fire pits on 12/5/2024. Tree lighting Saturday, December 7th. The Control 4 System is online for music and TVs. Issues with the locking mechanisms of the outside gates were resolved by IKE on 11/21/2024.
- **RiverLodge Gym:** All equipment is functional. Received a couple of emails about a few machines not functioning properly. One treadmill was simply coming unplugged, and I have reset the other machines in question. Will continue to monitor functionality. Pushing thorough gym cleaning to associates. Gym Rules Sign is now up, and we have a new cushioned floor matting under dumbbell area and squat rack. Lee & Cates will install a mirror directly behind the dumbbell rack as highly requested by patrons. Contacted Ike and Gary with

Ace Doors about problems with the front gym door not shutting fully enough to engage the lock, and some electronic mechanism issues with the rear gym doors. The issue with the back door of the gym has been resolved. Gary will be by to adjust front door.
